Flooding Investigations and Prevention

At Cabinet on Tuesday 5 November, a decision was made by the council that it would allocate £1.5m from its reserves to deal with the recommendations which have come out of the flood investigation (Section 19) reports following Storm Babet last October. The money will mostly be used for highways flood mitigation and drainage work but some will be put aside to develop longer-term schemes and accessing funding for further flood protection for the county. The money will not fix all problems with flooding in the county and the £1.5m relates only to the recommendations from the reports published so far (10 reports out of the 48 commissioned). The works funded via this decision will be carried out between now and March 2026, and additional funding is required because the council would ordinarily only carry out three or four investigations a year – Storm Babet means that nearly 50 will be needed. Flood investigations are prioritised in locations where five or more properties have been flooded, or flooding to major infrastructure for 10 hours or more.

This page on the SCC website gives information on the locations that will be subject to flood investigations as a result of Storm Babet: <https://www.suffolk.gov.uk/roads-and-transport/flooding-and-drainage/storm-babet>

This page contains links to all of the flood investigation reports published so far by the council (not just for Storm Babet reports from 2024, reports from previous years are also included): <https://www.suffolk.gov.uk/roads-and-transport/flooding-and-drainage/flood-management-in-suffolk/flood-investigation-reports>

Please see links at the bottom of this report on how to protect your property from flooding and advice on how to deal with the aftermath of flooding.

Loft Insulation Offer for Suffolk Residents

For the second year running, Suffolk's Public Sector Leaders are providing funding to help Suffolk residents make their homes warmer and save money on their energy bills by providing discounted loft insulation - an uninsulated home can lose up to a quarter of its heat through its roof. The Suffolk Loft Insulation Offer enables homeowners in Suffolk to receive a 50% discount (up to £200) and free delivery on orders of 200mm or 370mm wide eco-friendly thermal insulation rolls from High Loft, the UK's leading eco loft insulation brand. Last year, the project enabled the insulation of over 5,000m² of roofs in Suffolk, and this year the Suffolk Climate Change Partnership wants to double that figure. The offer is open to anyone in Suffolk and will only close once the allocated funding has been spent. Visit <https://highloft.co.uk/pages/suffolk-council-200-loft-insulation-contribution> and fill in the form to receive your discount code.

More Home Energy Efficiency Schemes

The council's new £3m fund for interest-free loans to residents wishing to undertake home energy efficiency upgrades that was mentioned in last month's parish report is now active, and applications can now be made at <https://www.lendology.org.uk/warm-home-suffolk-loan>. Energy efficiency upgrades such as insulation, solar panels, batteries, glazing, or heat pumps are

possible with loans from £2,000 to £15,000 to be repaid over a maximum of seven years at 0% interest.

A Suffolk Retrofit Assessment Voucher Scheme is also launching, funded by Suffolk Public Sector Leaders, whereby homeowners in Suffolk will be able to apply for a voucher that covers the cost of a professional retrofit assessment on their home property. These assessments are the first step towards making their home more energy-efficient, lowering their bills and reducing their carbon footprint. Residents who own a home with an EPC band of below C can take up the offer of a voucher to claim an assessment from a PAS 2035 Retrofit Assessor who will identify the best measures for their home, for example insulation, draft proofing, ventilation repairs, low carbon heating or solar panels. The assessment report will also incorporate analysis of the cost vs benefit of implementing the suggested improvements. The assessment is free for those with properties smaller than 98m², with a maximum additional charge of £30 for larger properties bigger.

Homeowners can check to see if their property has an existing Energy Certificate with an EPC band and record of their property size at gov.uk/find-energy-certificate. They can apply for the vouchers by visiting suffolkenergyassessment.co.uk. Applications are open now, and vouchers will be distributed on a first-come, first-served basis.

Council Budget Consultation

Suffolk County Council has launched a public consultation prior to decisions on the budget for the next financial year, 2025-26, which are due to be made in the next few months. This is an opportunity for residents and businesses to share their views on proposed Council Tax changes and spending priorities, as well as giving information on how the council manages its finances, the cost-saving measures already in place, and how the council might generate more money to support essential services. The council can increase its budget in two main ways: by receiving more funding from the government or by increasing Council Tax. The survey asks residents which council services they use and to indicate which council services they consider most important to them. The consultation will close on Monday 16 December, and if you want to participate, visit www.smartsurvey.co.uk/s/2025_26_budget. The results of the consultation will be included in a final report when the council sets its budget in February 2025.
