

Clerk's Report – December 2024

- We had another notification that the defib at Admirals Quarter had been deployed and a site check was made to ensure that the ambulance service have been informed that it is ready for further deployment.
- Training: Cloud storage (Scribe), Employment law changes (SALC). Employment law has changed so that all Councils must now have a Sexual and General Harassment Policy and Procedure. There is a model policy provided by SALC which Councils are advised to personalise according to the needs of the Council. I will present a policy to Council for consideration at the meeting in January.
- Football: the veteran's team held their first match on 1st December – thanks go to O. Abbott for his help with facilitating this.
- A neighbour close by the pavilion believes there are rats entering their garden coming from the pavilion. The Chairman is purchasing a couple of bait boxes to address this issue.
- The clerk is pursuing a timetable for the resurfacing of the basketball court, which is likely to be in the New Year.
- The dog bin on Church Green has fallen over in the storm and the clerk has contacted OA to see if he can rectify.
