

Text of an email sent to HPC re deer on Primrose Hill

Hi all,

I have reported 2 small dead deers on Primrose Hill, to Babergh district council, in the last week. This is a known area to be populated by deer and they are often close to the road in the evening.

I am concerned that there are no road signs to advise of them during this stretch of road, of which is often driven by non-locals (delivery drivers, coach drivers, HGV drivers & tourists for Alton water).

Please can this be something that is discussed and proposed to Babergh DC / Suffolk CC...

Best wishes,
